#### How much do you know about the arms trade?

Canada's arms industry is opaque, as are the criteria for approving arms sales. Canada has stated it will at last join the Arms Trade Treaty, which is very encouraging. But did you know that more than half of Canada's arms exports go to the US, and these are exempt from Canadian government controls and reporting? This is a major loophole! The Arms Trade Treaty is meant to apply to all countries yet Canada appears ready to ignore this fact.

There are also instances, like arms sales to Saudi Arabia and Israel, where Canadian arms may be used in direct violation of international law and of the Arms Trade Treaty. We are deeply concerned about this issue and know that our government can and must do better. ## New fact sheets explain Indigenous rights issues

We're pleased to launch a new series of fact sheets developed with our partners in the Coalition for the Human Rights of Indigenous Peoples! The three fact sheets are brief but full of important and timely information.

Myths and Misrepresentations: The UN Declaration on the Rights of Indigenous Peoples & Bill C-262 explores key myths circulating, such as that the UN Declaration creates special rights for Indigenous Peoples that other people don't have, and that Bill C-262 (to make Canada's laws consistent with the UN Declaration) would create chaos. Interpreting the UN Declaration on the Rights of Indigenous Peoples highlights and corrects mistakes we see all the time that lead to misinterpretations of the Declaration. Finally, Free, Prior and Informed Consent answers common questions you might have, like, "What is free, prior and informed consent? Where does it come from? When does it apply? Who has the right to grant or withhold it? Is it the same thing as a veto?" <a href="https://quakerservice.ca/factsheets">https://quakerservice.ca/factsheets</a>

### Separating children from parents

Many of us have seen chilling images from the US of refugee children who are terrified and extremely distressed after being forcefully separated from their parents. A new blog post by CFSC notes that this highlights the importance of Article 9 of the *Convention on the Rights of the Child*. Every child has a right not to be separated from parents without consent, unless it is in the best interests of the child, and then as a last resort and for the shortest time possible. However in Canada children are routinely separated from their parents against their best interests. #### Joint statement from the UN in Geneva

We were once again present as the Expert Mechanism on the Rights of Indigenous Peoples met at the United Nations in Geneva. This year we join with many partners on a shared statement and recommendations on free, prior, and informed consent. The joint statement clarifies attempts to weaken what consent means and how governments are to engage with Indigenous peoples. <a href="https://quakerservice.ca/EMRIP2018">https://quakerservice.ca/EMRIP2018</a>
